CORRECTED Assessment Rate Notification for FY22 (July 1, 2021 – June 30, 2022)

Please be advised that the corrected¹ assessment rate, as stated below, is \$9.03 per month per child contribution enrollee. This rate is still a reduction from the FY21 rate, though not as large as the reduction in the earlier notice.

The corrected Children's Health Account – Rhode Island (CHA-RI) assessment rate for FY22 is \$9.03 per month per child contribution enrollee.

Upon review, CHA-RI determined that a portion of the funds considered in the initial rate determination for FY22 was not supplied by payers and, therefore, should not have been considered as a credit against the otherwise applicable FY22 assessment rate. Accordingly, this Notice supersedes the Notice sent June 10, 2021.

The FY22 assessment rate will be used to determine amounts due on July 30, 2021, October 30, 2021, January 30, 2022 and April 30, 2022 for the measuring months of April through June 2021, July through September 2021, October through December 2021, January through March 2022, respectively. CHA-RI's self-reporting assessment system will automatically calculate assessments at the correct rate for the entirety of FY22.

¹ For any entity which already has paid the lower rate stated in the prior June 10, 2021 Notice, the CHA-RI assessment system will automatically bill for the difference as part of the automatic invoicing for the next quarter. There will be no penalty or late payment interest or other addition on account of any such underpayment for the first quarter of FY22.
